## Postcard from San Francisco

Dear Lucas

Nice greeting from San Francisco. I have a very good time with my family here. San Francisco is one of the most popular cities in California and very big with 800, 000 inhabitants. The town is very famous for its "Golden Gate Bridge". Yesterday, we visited this bridge. This size is fascinating because of its total length of 1970 metres. I hope we will meet each other again.

Andreas
